

Louisiana Youth B.A.S.S. Nation

Louisiana BASS Nation Youth Facts

- **LYBN is the only Louisiana BASS Nation sanctioned trail in Louisiana.**
- LYBN has over 1200 members, and around 400 teams across the state of Louisiana that actively participate in our qualifiers. That number is expected to rise dramatically in the 2027 season.
- Junior teams from 7 years old to 8th grade can compete in every tournament as Junior Bassmasters in their own divisions. Points are accrued for all tournaments that each team fishes and a points champion is crowned and awarded a bid to the Jr Bassmaster National Championship.
- **Costs to participate.**
 - \$12 BASS membership (Goes to BASS) per year and they can join anytime. None of these funds go to our state organization.
 - \$30 BASS Nation membership (Goes to BASS and is applied to insurance costs, and operating expenses). Need to be paid after September 1st but before the 1st qualifier for the 2027 Season. None of these funds go to our state organization.
 - Louisiana Youth BASS Nation does not charge a membership fee like other states to raise funds and chooses to pass that savings on to our teams. **That is over a \$24,000 savings to our teams.**
 - LYBN knows that many tournament series charge upwards of \$100 or more but we only charge \$62 entry fee per team for each tournament (fees may be added to entry fees), because we know how expensive this sport can be
 - All prizes and gifts given at LYBN tournaments are bought and funded by LYBN except for a small amount of “special” donated items.
 - All money received is applied to expenses to run LYBN. All funds left at the end of the season are retained for the next season and as a buffer for unexpected cost that may arise.
 - No LYBN officer, director, president, or board member takes any monies except for operating expenses to recoup their personal cost to run the organization.

Goals

- The number one goal is to get young people fishing.
- Have fun competing in the sport they love.
- Promote and educate on conservation of natural resources and aquatic species.
- Help anglers who want to go to the next level, get there.
 - Fishing against top competition.

- Getting them outside their comfort zone and expanding their fishing skills.
- Get anglers away from their home waters (Sometimes).
- Offer tournaments in diverse areas and estuaries to help them become well rounded and more experienced in what they will see at the next level.
 - Reservoirs
 - River systems
 - Cypress swamps
 - Marsh and tidal areas
 - Oxbows
- Provide tournament trails that colleges want anglers to fish so they can see a body of work showing an angler can fish, away from his/her home water and outside their comfort zone.
 - Colleges realize that an angler who can win tournaments at a local level often cannot compete at the college level which is diverse.
- Provide an environment like national, adult tournament trails, where teams travel and experience many places, spend time with friends and family, as well as understand what the next level brings as far as traveling from place to place to fish.
 - They need this experience for college, or if they choose to fish opens after they graduate high school.
- Make sure that every angler gets what they want out of this organization. From those young people who want to go out to have fun with family and friends to the hardcore anglers trying to get to the next level. They all matter!
